1.2 Appendix: Participants excluded from analyses – breakdown by decision point and rationale

Table 1: No. of participant-decision points excluded due to the fact that participants did not select their preferred Product or Charity at baseline

Decision Point	Number of Participants Excluded
1	8
2	8
3	8
4	8

Table 2: No. of participant-decision points excluded due to the fact that participants had missing values in any of the covariates utilized in the noise reduction model

Decision Point	Number of Participants Excluded
1	2
2	2
3	2
4	2

Table 3: No of participant-decision points excluded due to the fact that these participant-decision points came immediately after (i.e., time $t+1$) a decision point (i.e., time t) where the participant reported heavy drinking and hence were eligible for randomization (i.e., at time $t+1$). However, these participant-decision points did not have a record of the participant’s randomization assignment present in the data.

Decision Point	Number of Participants Excluded
